What is RAAM?

RAAM (Rapid Access Addiction Medication) Clinic is a western medicine model for access to ongoing care for addictions.

The RAAM Clinic attempts to meet the provincial standards of connecting people with a provider within 72 hours from presentation/referral for services.

Treatment Goals

Meet people where they are at and determine recovery goals together.

Using safer
RAAM team members support clients to obtain harm reduction supplies, equipment and medications to decrease the risk of transmission of certain diseases.

Using less of one or more substances.

Abstinence from one or more substances.

RAAM / MECCA Services

The RAAM Clinic / MECCA Program supports individuals in developing and working toward their unique recovery goals—whether that means reducing the risks and harms associated with substance use, making changes to their use patterns, or achieving abstinence from one or more substances.

While we primarily support clients experiencing opioid use disorder (OUD) and offer treatments such as Opioid Agonist Therapy (OAT), we also provide care for individuals dealing with stimulant use disorder (StUD), alcohol use disorder (AUD), and cannabis use disorder (CUD).

Our approach is person-centered, flexible, and rooted in harm reduction and evidence-based care.

The following are our services provided:

- Counselling.
- Recovery support.
- Contingency management.
- Contribute to outreach in partnership with Waasegiizhig Nanaandawe'iyewigamig (WNHAC)
- Assistance with community reintegration.
- Information and referrals to local agencies for support.
- Harm reduction support and education and resources.
- Provide a supportive and non-judgmental environment.

Who Can Participate?

RAAM and MECCA services can be accessed by anyone who resides in the Kenora area with a dependence on substances who are willing and committed to working toward recovery.

Proud Partner of Northwest Ontario RAAM
www.nworaam.ca

RAAM / MECCA Is a Partnership of:

Lake of the Woods District Hospital

WAASEGIIZHIG NANAANDAWE'IYEWIGAMIG

Northwestern Health Unit

Our collective goal is to offer community-based, low barrier services for patients who are seeking treatment for substance abuse disorders.

You are not alone.
